installations located east of the Kreckow suburb. Horse-drawn military vehicles were repeatedly seen with the troops. (4)

- 8. A Polish signal-communications detail of about 20 troops wearing khaki uniforms was quartered in the former apartment house at 14a ul. Wh. Czajkowskiego, fermerly Altdammerstrasse, about 2.5 km from the bridge across the Parnitz bivor. The detail was repeatedly observed doing line construction.
- 9. A NOT (Border Guard Corps) unit of company strength, wearing khaki uniforms and caps with green bands, was quartered in the three-story building of a former asphalt shingle factory, which had a street frontage of about 40 meters and was located on Altdammerstrasse near the Czech (sic) harbor. The border goard throops were apparently hand-picked personnel and were more disciplined than Polish Army throops.

25X1 Comments.

- (1) The designation "corps headquarters" is the approximate equivalent of an MD headquarters. However, since no MD headquarters is carried in Stettin, it may have been the Mq 12th Inf Div which was confirmed there prior to mid-1949. No information has been received on a transfer of the division headquarters.
- 12) We information is available on the occupation of these former German barracks installations.
- (3) Possibly the former Neue Artilleric Kaserne.
- (h) Large barracks installations are located east of Kreckow with Soviet troops occupying those on the east side of Mickiewisza and WOP troops those on the west side of the street.
